# Responsive Banking UI with Deposit/Withdrawal Buttons and Balance Display

## **Objective**

Design a visually appealing and responsive banking user interface using only HTML and CSS. This task helps in practicing modern layout techniques and styling without adding interactivity.

#### **Task Description**

Create a banking interface that includes:

- A balance display section (for example, a card or a highlighted box).
- A Deposit button.
- A Withdraw button.

#### The UI should:

- Be centered on the page.
- Use proper spacing and alignment to look clean and professional.
- Be responsive, adjusting gracefully on different screen sizes (desktop, tablet, mobile).

### **Output**

```
